Application summary

Application title
This is the title of your proposed project.

Proposed duration of funding (months)
This is normally 60 or 84 months (or full time equivalent). The fellow's salary and all research costs must end at the same time.

Proposed start date	

Name of administering organisation
If your application is successful, this is the organisation that will be responsible for administering the award.

Lead applicant's address at administering organisation
If your application is successful, we will use this address in your award letter.

Department/Division	
Organisation	
Street	
City/Town	
Postcode/Zipcode	
Country	

Research area
Select the most relevant area, based on the key aims of the research. This allocates your application to the relevant Grants team. We may reallocate your application to another area if we consider it appropriate.

Lead applicant

Lead applicant details	
Full Name	
Department

Country	
Telephone No.	
Email Address	

Career history (current/most recent first)				
From	To	Position	Organisation	

Source(s) of personal salary support
State all your sources of salary funding (for example, through your organisation's block grant from a higher education funding body), and the percentage of your salary they contribute. Answer 'not applicable' if you are not currently employed.

Your source of salary may affect your eligibility - please check the scheme webpage.

If your source of salary places any restrictions on intellectual property rights or publications arising from your research, contact us as this may also affect your eligibility.

Current/last appropriate basic salary (per annum)

Clinically-qualified applicants should exclude any banding elements for on-call hours.

Currency used for salary payments

What will your basic starting salary (per annum) be?

Education/training				
From	To	Qualification	Subject	Organisation

Clinical status Do you have a medical, veterinary, dental or clinical psychology degree?	

Specify

Are you clinically active?	

What is your specialty?
If your specialty is not on the list, select 'Other' and specify.

Specify

Describe the clinical duties that are essential to deliver the proposed research. State the number of hours per week that you will spend undertaking these.

We expect you to normally spend no more than eight hours each week in routine clinical duties. Exceptions to this are when more clinical time is essential to:

- *your research project; or*
- *the minimum requirements for the maintenance of clinical skills in your specialty. For the latter, you must give details.*

Provide a justification if you will be spending more than eight hours each week in clinical work.

Tell us if there are any changes in the clinical load you undertake.

State the number of hours per week that will be spent on 'routine' clinical work or will be needed for further training requirements.	

Other duties
List other professional academic responsibilities. State the number of hours per week you spend on each of these.

Do not include a list of teaching duties; instead you should state the amount of time you spend on undergraduate or postgraduate teaching.

You should be able to focus on your research throughout the duration of the Fellowship. If we are providing a full salary, you should not undertake more than eight hours a week of duties unrelated to the Fellowship (for instance, clinical work, teaching duties).

Career breaks Have you taken a break from research or any periods of part-time work? This could include periods of parental or long-term sick leave, or if you had caring responsibilities. You can also include any periods where you were unable to work because of the COVID-19 pandemic.	

We take breaks from research into account when we consider your track record. State when and for what period you took a break, or were working part-time. We are not asking for the reasons for this break so please do not provide these here, including sharing any sensitive personal health information.

Provide details

Do you wish to undertake this award part time?
If you wish to undertake this award part-time, either from the start or part way through the grant, your host organisation must employ you on a part-time basis during that time.

We provide flexible research career opportunities. If you're applying for funding, you can request flexible and part-time working. This could be to help you manage family commitments or if you have individual needs which make undertaking an award full time challenging.

We always try to accommodate requests, as long as your employing organisation agrees to the working arrangement. Your Grants Adviser will contact you to acknowledge receipt of your application after the scheme application deadline; you should discuss any flexible working plans with them as early as possible. If you have any questions before you apply, please contact our Grants Information Desk.

Career contributions
What are your most important research-related contributions? These may be from any stage of your research career. State what each contribution was, when it came about, why you think it is important and what impact it has had. Examples include publications, patents and impacts on policy.
(350 words max.)

Personal statement
Describe how this Fellowship will further your research and career aspirations, and its context in your longer-term vision.
(300 words max.)

Research outputs
List up to 20 of your most significant research outputs, ensuring that at least five of these are from the last five years. For 10 of these outputs, provide a statement describing their significance and your contribution (up to 50 words per output).

Research outputs may include (but are not limited to):
- Peer-reviewed publications and preprints
- Datasets, software and research materials
- Inventions, patents and commercial activity

Please give citation in full, including title of paper and all authors* Citations to preprints should state "Preprint", the repository name and the articles persistent identifier (e.g DOI).

(*All authors, unless more than 10, in which case please use 'et al', ensuring that your position as author remains clear.)

You should include here systematic reviews (e.g. Cochrane Reviews) and meta analyses, but exclude abstracts and literature reviews. We encourage the inclusion of articles published via open research publishing platforms, such as Wellcome Open Research, providing they have passed peer review.

Preprints, i.e. complete manuscripts that have been submitted to a preprint repository or service (e.g. bioRxiv, PeerJ Preprints, arXiv, SocArXiv or PsyArXiv), can be included only if they have a permanent identifier such as a DOI or arXiv identifier.

How many peer-reviewed publications have you authored/co-authored?
Include systematic reviews and meta analyses but exclude abstracts and

literature reviews.	

We encourage you to include articles published on open research publishing platforms, such as Wellcome Open Research, providing they have passed peer review.

Current and recent research funding (including Wellcome grants)
List all research funding you have held in the last five years and any key funding before then.

List the most recent first. State the name of the funder, name(s) of grantholder(s), title of the project, total amount awarded (and how much of this you received), your role in the project, and the start and end dates. State the percentage of your time spent on the research; if the grant is active state the number of hours per week that you spend on the research.

Include details of any recurrent or core funding you have held. Explain your role in obtaining the funding. For example, whether you held them in your own right as lead applicant, coapplicant, or as part of a consortium.

We look at your success in getting research funding when we assess your track record. We also want to understand how this proposal is distinct from other funding you hold.

Describe how the currently active grants listed above relate to this application.
(200 words max.)

Sponsor

Details of sponsor
Your sponsor will usually be at the level of Head of Department or higher.

Name	Current position	Department	Organisation	Country

Details of project

Research summary
Outline your proposed research, including key goals. Explain why you have chosen your research location.
(700 words max.)

Time spent on research
What percentage of your working week will be spent on this Fellowship?

Institutional support

Upload your institutional statement of commitment.

The statement of commitment must come from the organisation's Vice-Chancellor (or equivalent) and confirm:
1) the necessary space and facilities will be made available to you for the Wellcome-funded research from the start of the award and for the award duration;
2) the organisation will support a successful application for renewal of the fellowship and will jointly fund the Fellow's employment costs through a shared funding arrangement for the duration of any renewal period;
3) on termination of any award, an appropriate established position will be made available to the Fellow; and
4) for core-funded institutions, that the research is distinct from existing core supported activities, and if awarded would not replace or lead to a reduction in existing core support.

Your sponsor will be required to provide a scientific recommendation to support your research vision at the full application stage.

Approximate costs

Currency requested Select the currency requested for award	

Refer to the scheme webpage for details of allowed/disallowed costs and overseas allowances. Exclude inflation from your costs.

Applicant's salary costs	
Other salary requests	
Materials and consumables	
Animals	
Equipment	
International Recruitment Supplement	
Provision for Public Engagement	
Miscellaneous costs	
Total ()	

Include the full employment costs for all staff requested, including employer's contributions.

Provide the total cost of the animal work. Include the costs of purchase, maintenance, experimental procedures and any associated costs such as for animal licences, staff training in husbandry.

If you are requesting an international recruitment supplement (IRS), state the amount requested from the Wellcome in this section. The contribution from your organisation should not be included.

Number of posts requested
State as full-time equivalents

Research assistants	
Technicians	
Other	
Total	

Include both postdoctoral and postgraduate staff when entering the number of research assistants required.
