Source(s) of personal salary support
State all your sources of salary funding (for example, through your organisation's block grant from a higher education funding body), and the percentage of your salary they contribute. Answer 'not applicable' if you are not currently employed.

Your source of salary may affect your eligibility - please check the scheme webpage.

If your source of salary places any restrictions on intellectual property rights or publications arising from your research, contact us as this may also affect your eligibility.

Experience relevant to this proposal
Summarise your key achievements and experience, relevant to this proposal. State which period of your career they relate to. You do not need to list all of your positions.
(350 words max.)

List of recent significant outputs
List up to five of your most significant outputs. These could include, for example, peer-reviewed publications, preprints, policy consultations, public engagement events, digital content, exhibitions, or films/documentaries.

For academic publications, give the citation in full, including title of publication and all authors (unless more than 10, in which case you may use 'et al', ensuring that your position as author remains clear). Citations to preprints must state "Preprint", the repository name and the article's persistent identifier (e.g. DOI).

If applicable, you should include here systematic reviews (e.g. Cochrane Reviews) and meta analyses, but exclude abstracts and literature reviews. We encourage the inclusion of articles published via open research publishing platforms, such as Wellcome Open Research, providing they have passed peer review.

Preprints, i.e. complete manuscripts that have been submitted to a preprint repository or service (e.g. bioRxiv, PeerJ Preprints, arXiv, SocArXiv or PsyArXiv), can be included only if they have a permanent identifier such as a DOI or arXiv identifier.

Current and recent funding (including Wellcome Trust grants)
List up to five key prior grants (list the most recent first). State the name of the funder, name(s) of grantholder(s), title of the project, total amount awarded (and how much of this you received), your role in the project, and the start and end dates. If your grant is active state the number of hours per week that you spend on the project.

Include details of any recurrent or core funding you have held. Explain your role in obtaining the funding. For example, whether you held them in your own right as lead applicant, co-applicant, or as part of a consortium.

Leadership skills relevant to your project
Describe your leadership and management experience, including your experience of delivery, financial management and people management; and your understanding of communications.
(500 words max.)
